

2.7.1 Summary of Biopharmaceutic Studies

AMLOZA (Amlodipine Besylate Tablets, USP) 5 mg / 10 mg — ANDA

This ANDA relies on in vivo bioequivalence data (Module 5.3.1) and comparative in vitro dissolution data (also summarized in Module 5.3.1, Part A) rather than independently generated biopharmaceutic studies of the type typically summarized here for an NDA.

No biowaiver based on the Biopharmaceutics Classification System (BCS) is claimed; bioequivalence is instead established via the in vivo crossover study referenced in Module 5.3.1. No additional Section 2.7.1 content is applicable beyond that cross-reference for this generic drug application.
