

3.2.P.3.5 Process Validation and/or Evaluation

AMLOZA (Amlodipine Besylate Tablets, USP) 5 mg / 10 mg — ANDA

Process validation will be conducted in accordance with the three-stage lifecycle approach described in FDA's guidance, Process Validation: General Principles and Practices (2011): Stage 1 (Process Design), Stage 2 (Process Qualification, including Process Performance Qualification), and Stage 3 (Continued Process Verification). Process Performance Qualification (PPQ) would be conducted on an appropriate number of commercial-scale batches manufactured using the finalized commercial process, equipment, and control strategy, evaluating blend uniformity, content uniformity, dissolution, and physical tablet attributes, prior to commercial release. [PPQ protocol and data — placeholder for academic exercise; no experimental PPQ data are available or presented.]

ACADEMIC PORTFOLIO EXERCISE — NOT FOR REGULATORY SUBMISSION
