

### **3.2.P.8.1 Stability Summary and Conclusion**

*AMLOZA (Amlodipine Besylate Tablets, USP) 5 mg / 10 mg — ANDA*

A stability program per ICH Q1A(R2) is proposed for exhibit/validation batches: long-term storage at  $25^{\circ}\text{C} \pm 2^{\circ}\text{C}$  /  $60\% \text{ RH} \pm 5\% \text{ RH}$  (0, 3, 6, 9, 12, 18, 24, 36 months) and accelerated storage at  $40^{\circ}\text{C} \pm 2^{\circ}\text{C}$  /  $75\% \text{ RH} \pm 5\% \text{ RH}$  (0, 3, 6 months). Parameters proposed for testing: description, assay, dissolution, related substances, water content. No experimental stability data are available or presented in this academic dossier; shelf life would be established based on data generated under this or an equivalent approved protocol.

*ACADEMIC PORTFOLIO EXERCISE — NOT FOR REGULATORY SUBMISSION*
