

1.1.1 FORM FDA 356h — PLACEHOLDER

Application to Market a New Drug — ANDA Basis | AMLOZA (Amlodipine Besylate Tablets, USP) 5 mg / 10 mg

This section is reserved for a completed and signed Form FDA 356h, the primary application form for an Abbreviated New Drug Application (ANDA), required under 21 CFR 314.94(a)(1) and 21 CFR 314.50(a).

Form	Form FDA 356h
Purpose	Formal application vehicle identifying the applicant, the proposed drug product, the type of application (ANDA), and the applicant's certification of the accuracy and completeness of the submission
Signatory	An authorized official of the applicant (Sponsor); would require an original signature in a real submission
Status in this dossier	[Not completed — academic portfolio exercise. No signature, submission date, or application number is fabricated, as none of these exist for a fictional sponsor.]
Cross-reference	Applicant and drug product identification consistent with this form is presented narratively in Module 1.2 (Cover Letter) and Module 1.3.1 (Contact/Sponsor Information)

Portfolio Note: Reproducing a blank or specimen FDA form is outside the scope of this academic exercise; this placeholder demonstrates awareness of the form's regulatory function and its role as the formal application vehicle for an ANDA.

ACADEMIC PORTFOLIO EXERCISE — NOT FOR REGULATORY SUBMISSION
